

ARE YOU MISSING OUT?

80% of Doctors Say They Personally Take a Mineral Supplement Each Day. What Do They Know That You Don't?

Do you feel tired even after a full night's sleep? Do you have aches and pains that come and go, but never really clear up? Are you having trouble losing weight? Do you feel hungry most of the day? Do you feel irritable? Exhausted? Stressed out? Do you have skin problems such as blemishes or dry patches? If you said "yes" to one or more of these questions, you may be suffering from a **mineral deficiency**. Once only a problem of third world nations, **today mineral deficiency has reached epidemic proportions** world wide due to a vast number of factors - including **depletion of soil nutrients, increased food processing and today's fast paced lifestyle**.

WHY DO EIGHT OUT OF TEN DOCTORS TAKE A MINERAL SUPPLEMENT?

Recent medical research has shown that our body needs over 60 essential trace minerals to carry out all necessary bodily process. In fact, without the presence of minerals, the human body is unable to properly utilize all the nutrients our bodies need from the food and vitamins we consume - causing fatigue, illness and disease in varying degrees. That may be why thousands of people have already turned to Doc's Mineral Rocks for their mineral supplement needs. With fulvic acid and many other key colloidal minerals, Doc's Mineral Rocks is a super concentrated solution **extracted with cool, clean water from an ancient rain forest deposit**.

WHAT ARE COLLOIDAL MINERALS?

Minerals in their metallic form straight from the earth can be toxic to the human body. Fortunately, plants naturally absorb these metallic minerals through their roots and convert them to colloidal minerals which are can be readily utilized by the human body. **Each of the billions of microscopic colloids found in Doc's Mineral Rocks contains a virtual**

"You can trace every sickness, every disease, and every ailment to a mineral deficiency."
- Dr Linus Pauling, two time Nobel Prize winner

'solar system' of different minerals extracted from ancient organic plant sources and are easily absorbed by the tissues of the body - **delivering a full complement of essential minerals directly to the cellular level**.

WHY IS DOC'S MINERAL ROCKS SO EFFECTIVE?

Because Doc's Rocks minerals are sourced from such a rich source, they also have a natural negative electrical charge, which is the signature of true plant derived material. This has two very important benefits (1) it greatly increases the transport and bio-availability of nutrients from foods and vitamins and (2) it will attract toxins and heavy metals from the body and flush them out. Clinical tests done in the USA and Germany have verified this to be true.

It's also important to note that Doc's Rocks colloidal minerals are **specially harvested** to provide the **broadest spectrum** of the essential minerals - in fact, there are **over 70 different colloidal minerals** in each serving. Finally, to ensure **Doc's Rocks is the most potent, purest,**

and most mineral-intensive formula, no preservatives, synthetic substances or flavorings are ever added.

HOW DO I TAKE DOC'S MINERAL ROCKS?

As a dietary supplement, take one level teaspoon with a glass of your favorite juice or water, preferably in the evening. **It couldn't be easier!** And with the scientific and medical community already endorsing the regular consumption of mineral supplements as a way to improve your prospects of avoiding chronic degenerative disease, there's never been a better time to try Doc's Mineral Rocks.

"minerals with a natural negative electrical charge are up to 98% absorbable..." to get this broad spectrum absorbability, you'd have to eat several hundred pounds of fruits and vegetables... and we all know the impracticality of that!
- Dr Wallach, author "Dead Doctors Don't Lie"
